DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

As to claim 38, the prior art of record, taken alone or in combination, fails to disclose or render obvious a process control system including means for continuously monitoring at least part of a spectral characteristic of a plasma to provide a spectral signal and means for applying shape recognition techniques to the shape of said signal, in combination with the rest of the limitations of claim 38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
